

Dear Holy Family community,

As we celebrate the season of advent, we would like to pause and reflect. This is a perfect time... amid the busyness of our day to day lives as we rush to complete our list of tasks and add to that all of the different Christmas activities and never ending to do lists, let's take a moment to remember what the season is really about.

It is truly a time to be thankful and to live in gratitude for the many blessings we receive each day. Let's live our days with Joy, hope and kindness. Let us purposely strive to be the light of God among our children, our family, our friends, colleagues and our neighbours. Let us not forget that Jesus came into this world to show us how to be love and how to love one another.

The staff at Holy Family School would like to send each one of our students and their families many blessings not only for the Christmas Season but that it may extend onto the new year 2026!

May you always find in yourself and those around you the light of our Lord, Jesus Christ.
